

NENC Radiology Research

Edition 3: November 2024

Newsletter

**Our second lunch time learn drop-in session
Thank you, Northumbria Healthcare!**

Featuring our new tote bags!

MONTH IN A MINUTE

November has been a busy month, and a great chance to meet lots of different colleagues from across our region. We hosted our second lunch time learn drop-in session, and handed out our brand new 'Radiology Research' tote bags!

We have celebrated 'World Radiography day' - a chance for us to highlight the important work of our AHP workforce.

We also got the chance to visit the brand new Community Diagnostic Centre (CDC) at Metrocentre, Gateshead. A fantastic addition to our region, and great to see collaboration between Newcastle & Gateshead Hospitals.

We have also been planning more visits to our Hospitals across our region - please keep your eyes peeled for our posters advertising our visit at your site!

December's drop-in sessions dates:

Sunderland Royal Hospital, 10th Dec
Radiology Seminar Room, 12-2pm

Newcastle Freeman Hospital, 18th Dec,
Dem Room, 09:30-11:30am

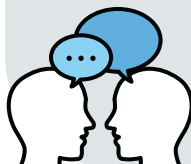

Newcastle RVI Hospital, 19th Dec,
Radiology Staff Room, 09:30-11:30am

We want to hear from you!

Would you like to feature your research story on our NHS Futures and Routes to Research page to inspire colleagues across our region and showcase your work?

Please email us to find out more!

Research Stories

Find out more about how others are involved with research from across the region!

Visit to the brand new Community Diagnostic Centre (CDC) at Metrocentre, Gateshead!

It was fantastic to visit the brand new CDC in the Metrocentre, Gateshead this month. The CDC offers patients different checks, scans and tests outside of the main hospital. The building is managed by QE Facilities, with services provided by Newcastle Hospitals and Gateshead Health.

Many thanks to Gareth Davies - CDC Clinical Manager, for the tour! It was great to discuss future research opportunities and collaborations. The CDC is a fantastic addition to our region!

Upcoming events!

NIHR | National Institute for Health and Care Research

cahpr
Community in Allied Health Professions Research North East
